

Dr. Stanley Kimball Monteith

February 17, 1929 - September 29, 2014

Dr. Monteith went home to be with the Lord on September 29, 2014. He was born and raised in Oakland, CA. After high school, he started his training as a medical doctor, receiving his doctorate of medicine degree from the University of California, San Francisco. He would then join the Army, and served in the Army Medical Corps in Germany from 1953 to 1955. It was there he met and married Marjorie Murchison, the mother of his two children. After returning from his military service, he returned to the University of San Francisco where he continued his medical education and received his degree as an Orthopedic Surgeon in 1959.

In 1960, he came to Santa Cruz, where he began his private practice as an Orthopedic Surgeon. He was well respected by his patients and the people he worked with. He lost Marjorie at the end of 1973. Several months later, he met his current wife, Barbara. In 1974, they moved to Bloemfontein, South Africa, where he taught Orthopedic Surgery. He also researched much historical information. In 1977, they returned to Santa Cruz where he resumed his private Orthopedic practice.

In 1993, he decided to retire and start doing a radio program, which he called Radio Liberty. It was a local program for a while, but soon he was doing the program on several stations, and eventually heard by a worldwide audience.

He had the privilege of interviewing many very knowledgeable people. He helped more people than we may ever know to understand the background of world events, and the spiritual battle that revolved around those world events.

During his younger years, he enjoyed dancing, the outdoors, hiking and fishing. The one thing he truly enjoyed was studying history. It helped him very much as he hosted Radio Liberty.

We may never know on this earth the impact he had on the many people who listened to his radio program. He received many letters from people who were so grateful for his efforts, and the fact that through him they had come to know the Lord as their Savior. He leaves behind his wife, Barbara, children David and Suzanne, stepson David Culp, grandchildren- Benjamin, Jennifer and Chelsea, and great grandchildren- Bella and Eli. Private services were held on Friday, October 3, 2014 at Oakwood Memorial Park with family in attendance.

“ My name is Jim and I have two boys we lost my wife their mom in 2015 to a scourge that has infected the young people of the United States. Prescription Medications. In my daily search for meaningful information that I could impart on my boys I found Dr. Stanley's Monteith 2007 video. I am so glad that He told this to me even though he left this earth for a much better place. I will continue to search for his videos and research the information that he imparted to us. GOD IS ALMIGHTY and we must continually PRAY for cleansing and forgiveness of ourselves but ask for those WRETCHED LOST to Wake up and ask for his forgiveness before it is to late! Thank you, to your Family for keeping this light lit!

“ Dr Stan was a talented host on Radio Liberty, bringing a whole new point of view, and generational culture, alternative but conservative in the true American tradition to listeners. I appreciated his pod-casts on radio time and again for several years. Very surprised that this happened. RIP

“ Dr. Monteith saved my foot, when I injured it in 1991, performed my back surgery in 1978, in which he told me to stop doing what I was doing. I did not listen, my back and foot are still doing great today. Great & Amazing Doctor. I am 60 years old now, God Bless this man and he did. My heart felt memories go out to his family. God Bless Kevin Butt 6525 Hill View Ave, Las Vegas, Nevada.

“ I was thinking of Dr. Monteith today and miss his show on late night radio. Great men like him are in heaven for sure.

“ Dr. Stan was a wonderfully gifted brother in Christ who has helped me immensely in understanding all of the things which are going on in the world today and in staying informed. He was such a blessing to many people and definitely had a gift of discernment and a heart of service to reach out and do all he could to wake people up to the truth. I am saddened by his departure from this world and will miss him greatly, although I am happy to know that he is with Jesus in a much better place with our rightful and just King of all kings. My sincere condolences and prayer go out to his family. We have all been blessed by knowing this man who stood up for God and spoke out for truth and I hope that he will continue to be heard for years to come...I know that his words and actions will continue to be an inspiration to me to also seek the truth and share it with my fellow man.

“ Dr. Stan opened a door where I found myself in a world that I didn't know existed. I matured as a human being, learning from the information he taught me through his radio show, books, and videos. For me Dr. Stan was a pioneer. Many have come after him,

and I'm sure many came before; but the direction he led me personally will be one I will

follow for the rest of my life. My best to his family and loved ones. I will continue to reference his books and videos for their valuable source of knowledge.

“ Dr. Stan shared world issues that are vital to the survival of mankind, and he did so with honesty, warmth and a sort of calmness that made it easier for us to face them. His persistence in helping us to understand what others are too afraid or too ignorant to face, made him a beacon for truth to the world; as he knew that someone needed to remind the country what this once great land stands for, and that its spiritual values are worth fighting for and protecting.

With love to the family,

“ Dear David,

So sorry to see that your Father has passed from this earth. Although long ago, he had a profound impact on my life, and my way of thinking, as a teenager.

I have thought of you both, many times, during my life's journey. Do know that I really enjoyed the visits with you during the long, hot summers.

My deepest condolences to you and your respective family members.

All the best as you journey forward. Perhaps we will meet, again.

Fondest regards,

“ To Barbara, Today is the 1 year anniversary since Dr. Stan's death or passing. He was a very wise man along with the late Bob Chapman. I learned a lot from these gentlemen. Miss them both very much. May they both RIP. Barbara, I said a little prayer for you especially for today. May God give you the strength needed to go on day by day, one day at a time, but especially for today.

“ I think there are a lot more people that miss Dr. Stan and who have been influenced by him than most people get as followers on facebook, etc. As a researcher, he was probably my most trusted source and always had good information and informative interviews. Not once did I ever have to doubt anything he said.

Doug Plumb - July 25, 2015 at 09:48 PM

“ Dr. Stan had great credibility on account of his extensive education, steady demeanor, keen insight, courage to present the truth (no matter how uncomfortable) and, moreover, his being a man of God. Therefore his position on an issue was to be taken very seriously. I know he influenced me, opening my eyes to the truth in ways others in the media either could not or would not. He was a beacon of light and truth in an increasingly dark world. I miss him, though there is solace in believing he's with the Lord, which is the greatest reward for unselfish service to God and man.

“ I can walk today because Dr. Stan put my legs back together after a motorcycle accident thirty years ago on Soquel - San Jose Rd. A friendship developed, and I was an occasional guest on his radio show after I ran for US House of Representatives as the Libertarian Party nominee against Leon Panetta (D) and Bill McCampbell (R) in 1992. Dr. Stan was a giant of a man, both in physical stature and in his contributions to the liberty movement. He will be missed. My heartfelt condolences to the family.

“ I am African American male and I did not know that Brother Stan had gone to be with the lord an emptiness ran through me .I could not wait to hear his mesages which inspired me so. I wish I could have had him speak to the African American community in person at one time so that they would really know what is going on especially how world events are in the word of God and how they will eventually make you decide for Christ or the enemy of our souls .We have lost a giant of a man and I thank God for him bro Stan, because of you I want to run on. God be with you til we meet again

“ I know without a doubt Stanley's family put up with his studies and many public speaking engagements. THANK YOU ALL for sharing Stanley with the world. Stanley stood firm on the truth. He's a hero to many. I only met him once. But the warmth in his presence was memorable to say the least. I think I'll make sure I see all of his speeches on Youtube ASAP.

Unfortunately he had to go when the world needed him the most.

The ministry I am with had the privilege of first publishing his book, *The Brotherhood of Darkness*. May Dr. Monteith's courageous and gracious life inspire many other Christian truth tellers in these last days!

“ I will miss the regular doses of reality and truth that were the hallmark of Dr Stan's Radio Liberty. His programme guests left me in the know about so many issues way before they filtered through other media sources, if they ever did at all. Many pertinent issues that affect our life physically and spiritually, but are seldom discussed (honestly) in mainstream media, were the staple of Dr Stan's programmes. I am more alert to the spiritual darkness of this world and our need for Jesus Christ much more as a result of having the pleasure of Dr Stan's radio programme. I'm certain that it was GOD who directed me to his radio programme. I miss him already and know that in the world of real "Truthers" - AKA, followers of Jesus Christ, there is a void that will need a special calling of GOD upon a man or woman if it's ever going to be filled. GOD bless Dr Stan and the family he has left behind - may they know the peace of Christ in their hearts as they get used to Stan's 'temporary' absence.

“ I attended two of Dr. Stan's Fall conferences and always enjoyed his wonderful unique interviews. He wisely let the people he interviewed do most of the talking and didn't interrupt the flow of conversation. I also had the privilege of meeting him in person at a conference in the East Bay. He was always gracious. I recall one time I called Radio Liberty for some reason, and Barbara answered. We had a very interesting conversation about Christian beliefs. He'll be missed, but I know he's in heaven with the Lord and all the wonderful Saints from down through the ages. I'll be he's interviewing Methusaleh, or the apostle Paul or....? His curiosity is probably still with him. God Bless Dr. Stan till we meet again and have an eternity to be with each other and all others who realized here on earth who the real boss is...

My eyes and mind have been made much more open thanks to his moral courage and deep dedication. What soever it be, it makes no separation between God and he.

“ I and my wife enjoyed listening to Dr. Stan over the airwaves here in the Los Angeles area for many years on AM 740 KBRT. He shed light on many controversial subjects and things which had great relevance in the news of the day. He was great to listen to and we looked forward to his broadcast every Saturday at noon. More than being an interesting person to listen to he was a man with a Christian mindset who was unashamed to proclaim the gospel of our Lord Jesus Christ. We will miss him dearly.

We know that we will see him again when we are all together with the Lord. I thank God for his radio show and books. He opened my eyes to the truths which allowed me to see the reality behind the reality. I appreciate the way he responded to his listeners, and the advice he gave me once in a telephone call. Blessings to his entire family, and blessings to his radio family too.

“ To Barbara Monteith:

Your wonderful and extraordinary husband, Dr. Stan, changed my life for the better (much, much better!) through his astonishingly good heart, thorough research, truth-seeking, balanced perspectives, fine intellect and authentic Christian values.

I posted on my Facebook page that he is "one of the greatest men of the 20th and 21st centuries." Notice that I say "is" and not "was" because Dr. Stan will always be with us in our hearts and through his publications and the recordings of his enlightening Radio Liberty programs.

I'm so sorry for your loss, Barbara. If you ever need anything from a loyal and loving listener, just call on me, please. Radio Liberty has my address and phone number.

“ God bless and be with you dear family of Dr. Stan! I simply cannot express how much I loved him and YOU for sharing him with us! I too listened for a very very long time, since way before 9-11.....not sure when it was....prob 1998 or whenever he first came on ACN up here in Washington State. He so greatly impacted my life that I find it hard to express in words how much. I listened almost every single day, twice a

day.....because I have always been a homemaker, stay-at-home mom and then a homeschooling mom. Our beloved Dr. Stan kept me informed and in so many ways comforted me that there were people out there that knew what I knew and cared about the truth like I did! It is hard every day not to hear him:(((.....and yet I slightly envy him that he is where he is. But, I am also very happy that he is now at rest and will hear those words from His Lord....."Well done thou good and faithful servant." Thank you Barbara and Son for sharing your most beloved and precious husband and father! AND "Thank you all" for your dedicated and hard work behind the scenes! There are 'MANY' up here in Washington State who love you and deeply appreciate you! I have tried my best to tell people about your ministry, talk to people, share on FB and other places.....and I will continue to! I still listen on you tube and my phone to Stan! But, it does hurt to hear his voice, and I deeply miss him.:(He felt like a Dad....a beloved Father. I have very high regards for him as a Godly man. May God bless you and keep you and may HIS face shine upon you and give you peace!!! We Love you always and forevermore.... <3 <3 <3.

“ I am who and where I am very much because of what I learned and how I was influenced by Dr Stan's radio ministry. I moved to Spokane, WA in 1999 and started listening to him on the local Christian stations there not long afterwards. I learned so much from his guests and because of what was on his program I started studying economics and politics and eventually went to graduate school for economics. I now teach economics and have been greatly influenced by the likes of Skousen, Bob, Patrick Wood and William Grigg among others, all of whom I found through Dr Stan's program. I still have a couple of his Brotherhood of Darkness books somewhere from the case I bought.

I haven't been able to listen for some time and when I finally visited the site I was shocked and very saddened to read of The Good Doctor's passing into eternity. Dr Stan lived an incredible life and had an amazing affect of so many through his broadcast and he will be so very missed.

May God bless the family of the wonderful Dr Stan.

“ My dearest and deepest condolence's to the family of the beloved Doctor Monteith, for their loss in this man of God, who has blessed the world, and most won't know it. I think of the passages of scripture; particularly Isaiah 21:6, and Ezekiel 3:17, and 33:7 referring to the watchman, and watchmen of God, beacons of truth and light, rare and getting rarer exponentially in these short days before the coming of the Lord. It is startling to realize how much Dr. Stan meant as a standard for the gathering of truth-seekers, and that their may not be someone so fashioned off the potter's wheel for such service as we have been blessed to know for so many a year's, so short a time in retrospect. May we raise the banner, if it were possible, even higher that Dr. Monteith had been carrying, devotedly to truth; who is our Lord Jesus, uncompromisingly, to fulfill all righteousness. Todd Francis

“ I do not remember how I came upon Radio Liberty with Dr Stan. It was he who enlightened me as to the real world in which we live. My respect for him and his wife are huge as to the work they did so untiringly to wake up the people globally, but especially America. God saw fit to take him out of this troubled world before all of the events played out on the world stage. I know we each have a purpose to fulfill here, to work until we go to meet our Saviour or He comes back for his glorious church., but I have to admit to envy on my part - Dr Stan is home, done with all of this! Condolences to you as a family! God Bless you for all you have done!

“ It was in 2006 when I first heard Dr. Stan. He was a guest, if I am not mistaken, on The Power Hour. The things he was speaking about, I had never heard of before, especially on alphabet TV news stations. All of a sudden, my eyes began to open and my world would never be the same.

Without Dr. Stan, I never would have found out what are the causes of M.S., seizures, who the Illuminati, Bilderburgs, Freemans, Rothchilds, Rockefellers, HAARP, Chemtrails and so much more are.

No more was I in a left/right paradigm. Dr. Stan, I looked forward to hearing you everyday in Tracy, CA from my Kindle Fire on the GCN Radio network.

“ Across the tearoom I asked him why the US was selling her gold. He invited me to have a glass of kalua that evening and he told me what was happening to the great country, and how it had turned away from GOD, and over many more pleasant evenings, he and Barb showed me the way to JESUS, and the truth about the tragedy about to unfold in the west. He and his family moved back to the 'States' and continued their crusade to warn countless numbers of the people of this world about how we do not wrestle against flesh and blood, but against the rulers of darkness of this age. He, with the valiant support of Barb, Big Dave, and Dave, and his family, have saved so many, and given comfort to them who thought all was lost. He instilled in us the victory of CHRIST. We thank GOD for sending him to us. Rest in peace. Chris and Lou.

“ What an incredible man Stan was... what a wise, calming voice a voice that did 5 hours of radio every day right up to the end.
What a loss to Barbara his wife who was his rock and his steadfast support through all the years.
I think though that he loved radio and loved the intelligent conversation it brought.... conversation with his many friends around the world.

Ive been downloading his podcasts for years now
always amazed at his incredible daily output and his mind that was still so sharp... his memory so vivid.
I hope Barbara and his son can get together all his incredible work... radio.. books.... essays ...
and preserve it as an enduring legacy for the whole world.

“ To Barbara Monteith and family and listeners: to know the truth and the world about us is often hidden. Dr. Stan risked himself to tell us all the many truths to educate and allow us to be able to help ourselves and others. I always felt he was a gift to all of us. A Blessing so rare to us all. I would ask all of his listeners to be inspired by his courage and to share his knowledge that it would inspire others to seek truths. “ Dr. Stan opened my eyes to the world as it is.

I can't think of any other man of his stature and ability who sacrificed so much to uncover and disseminate truth to others.

There's a great silence in the world now that he's gone.

“ I loved Dr Stan,
He was a wonderful person, who loved The Lord. My family listened to his programmes for over 16 years. He was always gracious, I called him one time to ask about the Berkeley light water system. I was told he would call me. I being cynical never thought he would actually take the time to call Canada. 10 minutes after, he phoned and answered every single question I had. I will miss him, it is the end o an era for us all. I thank The Lord for him being born. My deepest sympathy to his dear wife and beautiful family.

“ Dear Barbara, David and Family,
Our thoughts and prayers are with you at this time. Stan will be greatly missed, we so enjoyed our chance to meet you all in 2002 when we came and stayed. We had a lovely time with you. I often listen to Stan's shows and will greatly miss his insight and knowledge.
May God bless you all at this time, Brett and Antje (from New Zealand)

“ Dr. Stan was a courageous, intelligent, and patriotic man that stood boldly for Jesus Christ. As one of thousands that have listened to him for many years, I write to say how thankful I am for everything he shared on his radio program.

Thank you Barbara and the family for standing by Dr. Stan in his faithful service. May the Lord bless and keep you strong and be encouraged by the promise of the Bible; 2Co 5:8 We are confident, I say, and willing rather to be absent from the body, and to be present with the Lord.

“ I discovered Dr. Stan's show about a year ago and became a regular listener. What I really liked about Dr. Stan was his kindness to both guests and callers and the extensive knowledge and wisdom that he projected in each program he hosted. Even when he was not feeling well near the end he continued to do his best to give his listeners quality programs.

It goes without saying that he is missed by his extensive Radio Liberty Family and I am proud to have been part of this "family".

Thank you Dr. Stan. You made me want to be a better person and to help more people that are not as fortunate as myself.

“ Dr. Stan was a truly fine man. On numerous occasions, he hosted me as a guest on his radio programs. Especially after I published my first book, Dr. Stan offered me solid encouragement. While I studied thoroughly for each interview with Dr. Stan, I was humbled repeatedly by his exhaustive knowledge, spiritual discernment, and kindness of heart. I could listen to him for hours. Suffice it to say, I learned much from Dr. Stan's radio work, publications, and commentaries. For me he was an extraordinary mentor. In remembering the good doctor, I also commend those who faithfully surrounded him. As did he, his family at Radio Liberty always treated me with utmost respect. While the world has lost a stellar voice of liberty, heaven rejoices at his long-anticipated homecoming! The Victor's Wreath is yours, my friend! You ran a good race and, then, passed the baton with grace. Debra Rae.

“ He was one of the few conspiracy voices that came from a Christian perspective. He understood that it was really about a battle between spiritual forces and this was the reason that many people in politics seemed to do things that didn't make any sense. They were really controlled by demonic allegiances that had taken over the places of power in this world. I never heard him say one anti Semitic thing against Zionists that seem to dominate other conspiracy groups. He was an absolute Bible believer and it showed in his broadcasts. There will never be another quite like him. ~~ Paul Farnham ~~ Radio Liberty Facebook Fan Page

“ I may be counted as one who's eyes Dr. Stan immeasurably helped open. In 1993 Stan guested on a radio show I happened to catch while driving across NJ. Speaking on the subject of population control, the information so impressed me that I immediately called the station after the program to order the offered tapes only to find Dr. Stan on the other end of the line. To my grateful surprise he spent over 30 minutes explaining world events in greater detail. I was a faithful listener from that time on archiving over 5000 Radio Liberty programs which I continue to share as opportunities arise. I have little doubt the consideration he showed me that night was

his mere custom, but I'll never forget it as it changed my life. Truly a giant among men has graduated to great rewards. --- Mike Keating

“ Dr. Stan was our mentor for over 15 years and a true "lighthouse" of wisdom and truth. We were blessed to have known him and we learned so much from this "Walking Encyclopedia" of knowledge! As a result of his "long-distance radio tutorials," we became activists and we were privileged by God to have some very good success. Our hearts and thoughts go out to Dr. Stan's wonderful wife, Barbara, and his faithful son, David. Not that we're rushing things, mind you--but we can't wait to see Dr. Stan in Heaven and thank him once more for staying the course and shining his light for Christ!!!

“ To Barbara, David and Dorothy, Dr. Stan was a true American Patriot and his legacy will never be forgotten. The torch of liberty has been passed onto others like Alex Jones etc. May he RIP as we carry on in the spiritual battle against the "Brotherhood of Darkness." His work was NOT in vain and his fight for the restoration of the TRUE America will move on. I thank God for him and his many years of service to the LORD and now it is time to rest from his labors. I will deeply miss him and may God give you comfort in knowing that he changed many people's lives.

“ May God be with you during this time to comfort and strengthen you as you grieve and also reflect on fond memories and know that he is with the Lord. I admire Dr. Stan for standing up for what is right and broadcasting the truth to others, perhaps he will be the inspiration for the next Christian to take his place on Radio Liberty to keep the truth going. God bless you and keep you.

Carly Fournier - October 15, 2014 at 06:10 PM

“ I started listening to Radio Liberty fourteen years ago as a young twenty-something. I read Dr. Stan's book, "Brotherhood of Darkness," at about the same time. It was his knowledge, deep understanding, wisdom, and ability to convey his conviction and principles that caused me to become a faithful listener from then on.

It was he who inspired my work in the patriot community that ultimately led to my joining and becoming a volunteer, then paid staff member of The John Birch Society. He also inspired my study of history and politics, and ultimately the spiritual dimension of the epic struggle we are in.

Dr. Stan was a great patriot, and Radio Liberty the finest program of its type on the airwaves. He will be dearly missed as a teacher and great inspiration.

RIP, Dr. Stan.

Hi

I enjoyed listening to Radio Liberty Radio.

My first experience was on short wave radio.

Dr. exposed and enlighten me to world events. Different mindset reminded me that we are different and have right to have her or his opinion.

I learned a lot about world current affairs.

I fact that Dr Montieth promoted our God.

The best to Dr. Montieth family and staff Radio Liberty. God blessing to all.

Barbara & Family,

First of all, thank you for sharing your husband/father/grandfather with us.

Dr. Stan was truly one-of-a-kind and will be sorely missed.

Years ago I sensed that things weren't exactly as I'd been led to believe, things just

didn't add up. I prayed in earnest to God for knowledge and He answered my prayer request abundantly. Radio Liberty was one of the best sources that God led me to.

There are no words to express the depth and breadth of knowledge, understanding and wisdom that I've received from listening to Dr. Stan and his guests on Radio Liberty.

Dr. Stan's hard hitting determination and ability to ferret out the truth and find quality guests who did the same in the midst of overwhelming forces of evil and misdirection that rule our society today was amazing. I was honored to have recently helped support Dr. Stan's ministry in a small way.

Barbara, please keep the web site with the materials Dr. Stan accumulated available as long as possible. I know that the much of the material will quickly become outdated, but Dr. Stan was years ahead of the curve and much of the truth he and his guests discussed years ago is just coming to pass or even still in the future.

I rest assured that when my earthly life is through that I'll get to talk to Dr. Stan face to face in heaven. He isn't the first person I want to talk to in heaven but he is high on my list.

God bless,

“ Dr. Stan was probably the most unique radio host I ever heard. He answered all the questions I ever had about society, religion, the Bible, you name it. I also remember when Bob Chapman was on and we lost him as well, and I was trying to help get him on locally where I live. There were no takers, but I took that as a compliment. You had to have some taste to appreciate his show. I never heard anyone as well spoken as him. And the few times I got to talk to him I know he was a real patriot and I'm really gonna miss him. If anyone should go meet the Lord it was him. Thanks for all the great programs, information and memories and the family who I know worked hard to help him. God bless and comfort the family through this trying time.

“ Barbara and family,

Dr. Stan was a literal life saver for myself and family especially when he wasn't censored against giving medical advice on his program. His coverage of topics such as statin drugs, vitamins, cancer inhibitors, etc. was so appreciated by many. He was truly a man of God who gave his all and I'm sure as he stood before his Maker he could truly proclaim, "I gave my very best to Your children". Jesus said, "In my Father's house are many mansions". I hope one day to visit his. Thank you Barbara for so generously sharing your husband with us.

“ Dr. Stanley Monteith has been the cornerstone of my life for more than 10 years. He is the man that really got my attention in his unique style of asking the right questions. It was amazing how much I learned from him. We even helped the second printing of Brotherhood of Darkness by ordering a case of them to give away. I will never forget Christmas day 2010 when the phone rang from a previously unknown number and it was the man himself. Taking the time out of his life to call me. We spoke a few times before, but this particular time was special. His voice echoes through time and I listen in bittersweet silence. I pray his life is as

impactful in his absence as it was to me while he was here. Enjoy your eternal reward Dr. Stan. I am sure your view now is infinitely more beautiful than the Monterrey Bay.

Prayers and love to the family.

“ I began listening to Dr. Stan about 7 years ago,after reading Brotherhood of Darkness,then passing two copies on to others.I wish I could afford to pass out a case!He was my mentor as I myself am a truth seeker.Almost every morning I clicked on to radio liberty as I began my day and was fascinated with the things I heard, which confirmed some of my suspicions.When I saw where he had passed I was devastated,And when my brother and neighbors wanted to know what was wrong I said "my adopted dad has gone".I often called him my "adopted dad " because I believe the lord placed him in my life to help me grow in the direction He meant for me to go in,all along.Barbara, may God be with you and your family members during this difficult time.I thank you for taking the time to answer some of my questions,and for you and Dr.Stan returning my calls.and answering my letters. We will all see him again,when our work is finished here also.Please save another copy of his book for my personal book collection,which in near future I plan to purchase.Thanks, Teresa Chittum.
